

Valuable rebates made easy

Incentive Connect is a user-friendly platform that helps contractors identify and submit utility rebates tied to qualifying equipment sales in **Massachusetts, New Hampshire, and Rhode Island**. This easy to use tool is offered to our contractors at **no cost** to participate. If you sell high-efficiency equipment, Incentive Connect shows you which rebates apply and what information is needed.

Why participate in Incentive Connect

Capture incentives tied to your sales

Every utility program has different requirements. Incentive Connect simplifies the process and turns your existing sales into potential rebates.

Save time and avoid paperwork

See exactly what information is needed for each sales record and get guided through the process.

See rebate-eligible sales in one place

New data is uploaded weekly. Log into review recent sales and complete them so claims can be submitted on your behalf.

Program Highlights

See full program details for territory & equipment eligibility on the Incentive Connect Website.

How Incentive Connect Works

STEP 1 Register

Click **Get Started** and enter a recent invoice number. You and your team can self-register.

STEP 3 Complete sales records

Open Recent Sales, select Edit, add details like the installation address, then click Update.

STEP 2 Complete your profile

Access your secure dashboard to view sales records and recent purchases.

STEP 4 Submission and approval

Completed records are submitted weekly on your behalf. Payment is subject to program approval.

Commercial Water Heater Instant Incentives

- Natural gas water heater condensing, on demand tankless, volume domestic hot water heater, indirect
- High-speed clothes washer
- Electric heat pump water heater (HPWH)

Incentives and qualifying equipment are subject to change. See full program details and equipment eligibility on the Incentive Connect Website. Payments are subject to program approval and timelines vary by program. Contact your sales representative for payment-related questions.
